

Warranty Certificate

Shelves to Drawers RVA warrants the materials and the labor on storage we install, for the life of the installation at the address where we installed the storage.

Materials means the shelves, drawers, hardware, and related parts we supplied. Labor means the work of fitting, fastening, and adjusting that storage. If covered materials fail, or if covered labor fails, under normal household use, Shelves to Drawers RVA will repair or replace the failed part and will perform the labor to put the work right.

This warranty covers the storage where Shelves to Drawers RVA installed the storage. If the customer, or anyone else, takes the storage down and puts the storage up in another room or in another house, this warranty does not cover that later installation.

This warranty does not cover misuse, impact, a change made by someone other than Shelves to Drawers RVA, water damage, excessive moisture, settling of the building, normal wear of a finish, or parts the customer supplied. The remedy or replacement of the covered materials and labor, not a refund of the job.
